BUILT FOR TODAY, INSPIRED BY TOMORROW

New bathroom era...

Crafting tomorrow's bathrooms,
backed by a century of expertise...

With over century of legacy in ceramics, SERA stands at the forefront of innovation in bathroom solutions. What began as a commitment to craftsmanship has evolved into a fully integrated manufacturing ecosystem—spanning 150,000 sq. ft. of cutting-edge production space, driven by precision and purpose.

At SERA, automation meets artistry. Our advanced facilities ensure consistency, speed, and scale—without compromising the thoughtful design details that define our products. Form, Function, and long-lasting Durability.

We believe the future is sustainable by design. That's why we champion water-saving technology, rimless hygiene solutions, and high-efficiency manufacturing processes that reduce waste and environmental impact. Led by a team of visionary designers and engineers, SERA blends timeless elegance with forward-thinking functionality—redefining how bathroom spaces are experienced.

seraceramics.com

Transform your routine into a daily ritual

Sera doesn't just make bathrooms. It reimagines how you move through them. Every basin, WC, and fixture is the result of obsessive innovation—refined through technology, elevated by design, and built for how people really live. We don't add features for the sake of novelty. We add what works. What lasts. What delights.

At the heart of Sera is a simple promise: better living through intelligent design. That means automation where it matters, craftsmanship where it counts, and beauty that never gets in the way of function. This isn't about trends. It's about timeless solutions—created for real homes, real routines, and a future that's already arrived.

Complete in every sense

Every detail. Every finish.
Every function. Designed
For modern living.

Great design doesn't shout—it whispers in every curve, every corner, every carefully considered function.

At Sera, we believe the bathroom is not merely a place, it's a personal ritual. That's why we engineer with precision, design with empathy, and finish with intent. Every product is the result of uncompromising attention to detail, crafted not just to look good, but to feel right, to work seamlessly, and to last beautifully. It's where emotion meets engineering.

Where aesthetics are never an afterthought. And where, piece by piece, your bathroom becomes not just complete, but complete in every sense.

1. Add colours to your bathroom
2. Designing for Air, Reflection & Ease
3. For the Fearless & The Refined
4. For Every Wall Finish, Texture & Sense
5. Behind the Wall, Beyond the Ordinary

1

A mood called colour...

Add colours to your bathroom

White may be timeless, but color can be transformational. A soft sage basin to set a peaceful tone. A dusty rose sink that adds warmth to winter mornings. A midnight blue WC that speaks in the language of stillness. At Sera, we believe that bathrooms should feel personal. Our palette of basins and WCs is curated not just to match a space, but to reflect the mood of the person using it. Crafted with emotion, rooted in design—because color is more than appearance, it's atmosphere.

2

Freshness and light...

Designing for Air, Reflection & Ease

The best bathrooms don't just function—they breathe. At Sera, we understand the power of light and space. Our designs work in harmony with natural light, open layouts, and soft surfaces. Whether it's the way light hits a curved ceramic sink or the reflection off a perfectly matte glaze, our products are built to enhance airiness. Add in thoughtful placement, elegant finishes, and space-maximizing silhouettes—and your bathroom transforms from practical to peaceful. Freshness, designed into every corner.

3

Bold & beautiful...

For the Fearless & The Refined

Bold design isn't just about standing out—it's about standing for something. At Sera, boldness means purpose: strong geometry, striking finishes, and uncompromising performance. From a variety of basins that bring edge to minimal spaces, to clean-lined WCs that cut through the clutter, our products are sculptural, yet functional. Refined, yet commanding. This is beauty made sharp—design with confidence, for those who lead with style.

Surfaces that speak...

For Every Wall Finish, Texture & Sense

Every surface tells a story—whether it's the cool elegance of marble, the hand-made charm of Moroccan tile, or the organic grain of natural wood. Sera's collections are designed to respond to these textures, not compete with them. Our basins and WCs echo the language of your walls, flowing seamlessly into a wide range of aesthetics—from rustic to contemporary, urban to artisanal.

Let your surfaces speak; Sera is here to listen and complement.

5

Behind the wall, beyond the ordinary

Concealed Tanks & Wall-Hung WCs

Sometimes, the best design is the one you don't see. With concealed tanks and wall-hung WCs, Sera delivers sleek, space-saving elegance—while embedding robust engineering behind the wall. These designs offer more than just visual clarity: they're easier to clean, quieter, and more hygienic. What appears minimalist on the outside is supported by industry-leading innovation within. Because we believe every inch of the bathroom—seen or unseen—should reflect excellence.

Tariq Hasan

Built to Endure

The One reflects a philosophy rooted in clarity, efficiency, and silent performance.

Rashid Rasheed

The Future, Forged

Neo is not just a collection. It's a vision of tomorrow, streamlined, sustainable, & superbly functional.

Shahid Khan

Simplicity with Soul

With **Senso**, he curates a collection that turns dreamlike forms into practical elegance.

Moyena Ahmed

Color in Balance

Her curation of the **Pure** collection speaks to this very philosophy.

Designs of Distinction

Curated by Visionaries

Where the mastery of architecture meets the language of bathrooms.

Ghayoor Obaid

Minimalism with Meaning.

The **Urban** collection under his curation feels like a manifesto.

Coalesce Design Studio

Beyond the Edge

In **Next**, they have curated a collection that moves beyond aesthetics and into emotion.

7 Reasons why It's more than just a toilet.

Engineered by SERA.
Perfected for Living.

Pure Porcelain
Perfection

1

Crafted from high-grade porcelain, every SERA unit promises unmatched durability, elegance, and resistance to time. This isn't just ceramic. It's vitrified excellence—built to last, made to impress.

**Tripple Glazed.
Tripple the Brilliance.**

2

SERA's signature triple-glazing technology creates a mirror-smooth surface that resists stains, bacteria, and dullness.

The result? A shine that endures and a clean that takes less effort.

3

**Rimless
Revolution**

Traditional rims hide more than just grime. SERA's rimless design means every flush is a full sweep—no crevices, no build-up, just pure hygiene. Cleaner, smarter, and simply better.

4 Wash-Down

The washdown toilet's gravity-fed flush system offers a key advantage: it uses direct water flow from the tank to efficiently push waste into the drainage system. With fewer moving parts and a simple push mechanism, it delivers a fast, water-efficient flush without relying on complex suction or full evacuation—reducing maintenance and ensuring reliable performance.

5 Dual Flush, Full Control

Because not all flushes are created equal. SERA's dual flush gives you the power of choice—light or full, eco or effective. Water-saving never felt this efficient.

Engineered to deliver exactly what you need 6 litres for a complete cleanse, 3 litres for lighter flushes. Every drop is optimized, saving water without compromising performance.

6

Quick-Release Lid

A design that's clever to clean. Our seat can be removed with a gentle lift—no tools, no hassle. Clean underneath, around, and through with ease. Hygiene has never been this hands-on.

7

Soft Close Symphony

Gone are the days of slamming lids. Our soft-close seat glides shut in silence, preserving peace—and your porcelain. It's a touch of luxury you'll notice every time.

Moyena Ahmed

Architect

In a world often muted, Moyena brings color with conscience. A name synonymous with sustainable architecture, she is a true biophile—someone innately drawn to nature, its harmony, and its hues. Her work radiates thoughtful restraint and joyful vibrance—two opposing energies she seamlessly brings into balance.

Her curation of **the Pure collection speaks to this very philosophy: colorful yet grounded, expressive yet essential.** With a deep respect for the environment and an eye for the emotive power of hue, Moyena reimagines the bathroom as a space of renewal—for both the individual and the planet.

Serenity sells.

Rashid Rasheed

Architect

Step into the workshop of Rashid Rasheed and you'll witness structure meet soul. Known for his bold use of recyclable steel and mastery of geometry, his work carries an ethos of responsibility wrapped in revolutionary form.

**Neo is not just a collection.
It's a vision of tomorrow.**

Streamlined, sustainable, & superbly functional. Rashid distills new technologies into sculptural expression, where the bathroom becomes a stage for what's next. With Neo, the future is not imagined. It's cast in porcelain.

Architect

Every line drawn by Ghayoor Obaid is in dialogue with society. His work does not merely reflect the present it interrogates it, elevates it, and redefines what design should do. Whether modernist or regionalist, he builds with intention and intellect.

The Urban collection under his curation feels like a manifesto. It embraces contradiction—industrial yet inviting, minimal yet full of narrative. Urban is not just a bathroom collection. It is a cultural reading, authored in angles and arcs.

Art by design.

[illegible]

A modern bathroom interior featuring walls covered in blue mosaic tiles of various shades. The floor is a solid blue color with a subtle hexagonal pattern. Two white ceramic toilets are visible, one in the foreground and one in the background. A small wooden stool with a white towel and toiletries sits on the floor. A single round pendant light hangs from the ceiling. The image has a curved bottom edge.
