Designs at Roca

Versatility is key. Slim basins feature a more subtle yet durable design with remarkable faucets featuring a cylindrical and slender body and a flat rectangular handle, in perfect harmony with the shape of the spout. In addition, the hidden fixations of the WC allow for a clean and minimal look at all times. The soothing matt white colour, can be complemented with furniture and accessories in Mediterranean colours.

Sustainability at Roca

To take care of the environment is not only about what we do; it reflects our very essence. We use technology and design to save water and energy, using features such as 4.5/3L flush, faucets with the Cold Start system and 5L/min flow limiters. But water isn't the only thing we consider. Our Fineceramic® technology produces lighter basins which minimise the impact of transport and the production process to limit our overall carbon footprint. Everything matters.

Hygiene at Roca

Details that change everything inside your bathroom: Roca Rimless® touchless and Supraglaze®. Roca Rimless® toilets are free of angles or nooks, and its optional Supraglaze® finish prevents dirt from adhering to the surface, making it ultra-hygienic and easy to clean. Our touchless technology, employed in flushing, faucets and soap dispensers, function without direct contact for extra peace of mind.

Inspira

Designed to complement modern architecture, Inspira Washbasins combine visual elegance with practical features. Their sleek forms, durable materials, and premium finish make them suitable for upscale bathrooms seeking a sophisticated yet minimal look.
